Everyone uses Windows 10 with different versions. Follow these steps to check the version as well as other specifications.

- Go to your Start menu and in the search bar click on the About your PC.
- Click on About your PC, then scroll down to see your version number.

## WINDOWS TO VERSION THAT SUPPORTED TO QUICKBOOKS

Look below to see which is certified to work with QuickBooks

- Windows 10 Version 1809 (Latest)
- Windows 10 version 1803
- Windows 10 version 1709
- Windows 10 version 1507, 1511, 1607, and 1703

## Windows Compatibility With Various QuickBooks Versions

### #1: QUICKBOOKS 2016 R7 AND LATER

Too much of the delight for the QB user QB 2016 R7 is certified to work with windows 10. If you are using a release of QuickBooks 2016 earlier than R7, you will need to update QuickBooks to the latest version to work in Windows 10. But if you are using QuickBooks 2016 R7 and later, you do not need to update anything, you can easily work on Windows 10.

### #2: QUICKBOOKS 2016(R1-R6) WINDOWS 10

If you want to open QuickBooks 2015 on Windows 10, you should make sure that you have enabled .NET framework 3.5 which is mostly disable by default from Microsoft, so that you can have the best experience possible while using an operating system that does not support QB.

### #3: QUICKBOOKS 2014 AND EARLIER

It should be noted that QuickBooks 2014 is not supported in Windows 10 and using this version might create compatibility issues or can end up in a complete mess. Thus, to further use QuickBooks, we request the user to upgrade the version of QuickBooks to 2014 or 2015.

### #4: ENABLE MICROSOFT .NET3.5 FOR QB

Windows 10 version sometimes may not have .NET Framework 3.5 enabled by default and the framework is essential for QuickBooks Desktop to functions properly with the latest series of the operating system. You must enable (if not enabled already) the .NET Framework 3.5 for the smoothest experience possible on Windows 10.

### CONCLUSION!

The above solutions will help you fix the QuickBooks 2014 compatibility issue with Windows 10.
