QUICKBOOKS ERROR CODE 20: PRINTER NOT ACTIVATED

Printer not activated is one of the most commonly encountered errors that are most probable to occur when the new operating system puts the Hkey_Current-config\software key in the registry settings. As a result of QuickBooks error 20, you might not be able to print or send invoices and payslips that lead to further nuisance.

WHAT CAUSES QUICKBOOKS ERROR 20?

QuickBooks Error 20 may occur due to the following reasons:

- QuickBooks 2009 compatibility issues with Windows 10
- You are still using QuickBooks 2009
- QuickBooks Windows registry file issues
- Unsupported printer drivers
- Outdated application key
- There is an outdated windows operating system

Methods to fix QuickBooks Error 20

#1: REGISTRY BACKUP AND RESTORE POINT

- Backup Windows Registry.
- Open the registry editor to add manual changes to it.
- Open the file menu and export the registry and save it.
- Create a restore point to revoke the changes made in the Registry if required.
- Wait till the time system restore point creation process ends and click OK when finished.

#2: CONFIGURE USER PERMISSION

- Hit Window and type regedit in the search bar are OK.
- Right-click on regedit and select Run as Administrator.
- Double-click the HKEY_CURRENT_CONFIG folder in the left Pan.
- Right-click on the Software folder in the pan and select the Permissions... option from the menu.

#3: CONFIGURE PRINT SPOOLER PERMISSION

- Press Windows + R at the same time and type MSC in the Run box that appears.
- Right-Click on the Print Spooler Service from the services list and select "Properties".
- Stop the Print Spooler Service.
- From the Startup Type dropdown, select Automatic.

#4: REPAIR PDF QBPRINT.QBP FILE

- Open your Windows Control Panel and go to Programs and Features
- Select QuickBooks from the list of the installed program.
- And Click Change and start the repair process and follow the instruction till the end.
- Restart the computer after the QuickBooks Repair process finishes.
- Try to print something or Save a PDF, this should resolve QuickBooks Error Code 20
